OBJECTIVE

Let me introduce myself, I am a Full Stack Developer who has 2.5 years of experience in my domain. My objective is to obtain a challenging position in a high-quality environment where my academic skills and practical expertise will add value to organization.

EXPERIENCE

Tandem Crystals Pvt Limited, Chennai— Full Stack Developer

Dec 2022 – PRESENT

- Worked for a period of 5 months with a team of 3 to integrate an e-commerce site using Django and Alpine JS from scratch.
- Did Design to code conversion using Tailwind CSS and from wire frame to models.

Sageflare Tech Pvt Limited, Chennai— Junior Full Stack Developer

Jan 2021 - Dec 2022

- Worked with a team of 3 members in integrating the application using Django and React JS.
- My primary role was to perform **CRUD** operations and create API endpoints.
- Did unit testing using Pytest and checked the frontend workflow using Cypress. Converted the frontend React components using typescript. Managing **AWS** server deployed on EC2 Instance. Used Tailwind CSS to build frontend static pages. Have been working on React components and hooks for some time now.

Smilyo Educational Charitable Trust, New Delhi —Python Intern

Nov 2020 - Jan 2021

Worked on tasks related to web scraping.

PROJECTS

Personal Projects on GitHub

- Created Payment Integration using Stripe.
- Django celery task mail.
- Docker container.

Web Scraping

- Scraped Google images using selenium.
- Scraped ecommerce websites and converted the data into tables using pandas.
